DETAILED ACTION

An amendment containing a substitute Sequence Listing and CRF was received and entered on 7/22/04.

Specification

The amendment filed 7/22/04 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The submitted Sequence Listing 7/22/04 does not accurately reflect the sequence of the oligonucleotides at page 10, lines 3 and 4 of the specification. In the specification as filed these oligonucleotides, corresponding to SEQ ID NOS: 7 and 8, contain (I) inosine residues at positions 6 and 9, respectively. However, the newly submitted Sequence Listing substitutes an 'N' for the 'I' at these positions. As such, the Sequence Listing introduces new matter into the disclosure.

Applicant is required to cancel the new matter in the reply to this Office Action, and to submit:

A substitute computer readable form (CRF) copy of the "Sequence Listing".

A substitute paper copy of the "Sequence Listing", as well as an amendment directing its entry into the specification.

A statement that the content of the paper and computer readable copies are the same and, where applicable, include no new matter, as required by 37 C.F.R. 1.821(e) or 1.821(f) or 1.821(g) or 1.825(b) or 1.825(d).

Compliance with Sequence Rules

This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the following reason(s). This application clearly fails to comply with the requirements of 37 C.F.R.1.821-1.825. Applicant's attention is directed to the final rule making notice published at 55 FR 18230 (May 1, 1990), and 1114 OG 29 (May 15, 1990). If the effective filing date is on or after July 1, 1998, see the final rulemaking notice published at 63 FR 29620 (June 1, 1998) and 1211 OG 82 (June 23, 1998). **Nucleotide sequences in excess of 10 nucleotides are disclosed at page 10, lines 3 and 4, page 13, lines 10, 1, 23, and 24, and page 14, lines 15 and 16, but these sequences have not been accorded a SEQ ID Number. The specification should be amended to insert the appropriate SEQ ID NOS adjacent to the appropriate sequences.**
